### Volume 4, Number 3, June 2014

#### • Disaster Prevention and Control Systems

Distributed System Design for the Control and Evaluation of Engagement Simulations.....171

*Won K. Ham, Yongho Chung, and Sang C. Park*

Analyzing Infrasound and Seismic Signals Emanating from a Waterborne System Using Canonical Modeling and Analysis Methods.....176

*William W. Arrasmith, Everett R. Coots, John V. Olson, and Eric A. Skowbo*

Infrasound-Based Intrusion Detection with Game Theoretic Resource Optimization.....182

*Barry Webster, William Arrasmith, and Lok Acharya*

Requirements Definitions of Real-Time System Using the Behavioral Patterns Analysis (BPA) Approach: The Missile Control System.....188

*Assem El-Ansary*

A Simplified Mathematical Model for Fire Spread Predictions in Wildland Fires Combining between the Models of Anderson and Rothermel.....197

*Ali Karouni, Bassam Daya, Samia Bahlak, and Pierre Chauvet*

#### • System Design and Modeling

A Broadband Rectangular Microstrip Patch Antenna for Wireless Communications.....201

*Settamong Malisuwan, Jesada Sivaraks, Noppadol Tiannara, and Nattakit Suriyakrai*

A GPU-Based Simulation Kernel within Heterogeneous Collaborative Computation on Large-Scale Artificial Society.....205

*Li Zhen, Qiuxiao Gang, Guo Gang, and Chen Bin*

Energy Efficient Liquid Desiccant Hybrid Air Conditioning System.....211

*Y. A. F. El-Samadony and B. M. Gibbs*

E-Wallet System for Bangladesh an Electronic Payment System.....216

*Mohammad Salah Uddin and Afroza Yesmin Akhi*

Robust Decisions of Capital-Constrained Supply Chain with Demand Uncertainty.....220

*Nina Yan*

#### • Software Engineering

Genetic Fuzzy System for Enhancing Software Estimation Models.....227

*Abeer Hamdy*

Patch-Wise Charge Distribution Density for 3D Model Retrieval.....233

*Fattah Alizadeh, Alistair Sutherland, and Khaled Moradi*

Partial Order Reduction for Verification of WS-BPEL.....	239
<i>Denduang Pradubsuwun and Wutthipong Kongburan</i>	
A Higraph-Based Formalism for System Modelling Language ArKIect.....	246
<i>Hycham Aboutaleb and Bruno Monsuez</i>	
Information Systems to Support Collaboration in Large Research Projects.....	251
<i>Lars Wolter, Wei Min Wang, and Rainer Stark</i>
