

International Journal of Modeling and Optimization

CONTENTS

Volume 10, Number 1, February 2020

• System Modeling and Algorithm Optimization

- ESProNet: A Model Library for the Dynamic Simulation of Industrial Symbiosis 1
Martin Maiwald, Linda Kosmol, Christoph Pieper, and Thorsten Schmidt
- Modeling Interstate War Combat Deaths 8
Vaughn H. Standley, Frank G. Nuño, and Jacob W. Sharpe
- CO-ARCH: Methodology for COllaborative ARCHitectures for Cross-organizational Data Analysis 13
B. D. Van Der Waaij, E. Lazovik, T. Albers, and M. R. Vonder
- Design and Evaluation on Mobile Edge Caching Testbed 20
Can Zhang, Mingyuan Zang, and Ying Yan
- Building a Cloud-Based Regression Model to Predict Click-Through Rate in Business Messaging Campaigns 26
Alexandros Deligiannis, Charalampos Argyriou, and Dimitrios Kourtesis
- Artificial Carbon Nanotube Synthesis Optimization to Address the Vaccine Cold Chain Network Problem 32
Kanon Sujaree
