### Volume 10, Number 4, August 2020

#### • Mechanical System Modeling and Design

Improving the Dynamic Behaviour of a New 6 DOF Industrial Robot..... 109

*N. Mihai and P. Badescu*

Estimation of Roller Bearings Manufacturing Cost by Causal Identification and Comparative Assessment —  
Case Study Performed on Industrial Data ..... 114

*Gabriel Frumușanu, Cezarina Afteni, and Viorel Păunoiu*

Modeling and Vibration Reduction of a Flexible Planar Manipulator with Experimental System Identification ...  
..... 121

*Levent Malgaca, Şefika İpek Lök, and Mehmet Uyar*

Method for the Kinematic Analysis of the Vehicle Axle Guiding Mechanisms ..... 126

*Cătălin Alexandru*

#### • Mathematical Model and Calculation

Mathematical and Computer Models of Settlements of Political Conflicts and Problems of Optimization of  
Resources..... 132

*T. Chilachava and G. Pochkhua*
