

International Journal of Modeling and Optimization

CONTENTS

Volume 12, Number 1, February 2022

- **Data Analysis and Simulation**

Framework of Experimental Design and Data Mining in Multi-agent Simulation 1
Fa Zhang, Shi-Hui Wu, and Zhi-Hua Song

Optimal Base Station Network Based on Topological Data Analysis..... 8
Minhao Lyu

- **Mechanical System Design and Modeling**

Architectural Hierarchy of the Next Generation Manufacturing System 15
Gabriel Frumușanu and Alexandru Epureanu

CFD-CAA Method for Prediction of Pseudosound and Emitted Noise in Quadcopter Propeller 21
Sergey Timushev, Alexey Yakovlev, and Dmitry Klimenko

Sealing the Cracks in the Wear Layer of the Road Surface by Friction against a Rotary Active Element 26
Stefan Ionita and Stefan Velicu

Design of a VTOL UAV for Anti-poaching Surveillance Missions in the Danube Delta 31
Sorin Andrei Negru, Marilena Manea, and Gabriel Jiga
