

International Journal of Modeling and Optimization

CONTENTS

Volume 13, Number 4, 2023

- Temperature Estimation Accuracy Improvement of Computational Fluid Dynamic Simulation by Optimizing Multiple Parameters..... 107
*Yuanzhi Huo**, *Nobuo Funabiki*, *Xiang Xu*, *Kazuyuki Kojima*, *Yihan Zhao*, and *Wenchung Kao*
- Integrated Lean-BPM Model to Increase Order 112
Alithú Ankara Márquez-Ordinola, *Judith Anita Vásquez-Solis-Echegaray*, *Juan Carlos Quiroz-Flores**, *Alberto Enrique Flores-Pérez*, and *Martín Fidel Collao-Díaz*
- Use of Articulated Arms and Parallel Acting Robots in Flexible Manufacturing Cells..... 117
*M. Costea**, *A. Ancuța*, and *G. Jiga*
- Consideration of the Optimal Form of Ribby Observing the Stress and the Tooth Deflection of a Small and High-Strength Spiral Bevel Gear Fabricated Using Five-Axis Controlled Machining Center 123
*Masahiro Saito**, *Shinya Toyota*, *Toshiki Hirogaki*, and *Eiichi Aoyama*
- Flood Prediction in the Lower Cape Fear River Using SAR Based Water Extraction..... 129
*D. McMoran**, *A. Langevin*, *A. Whittaker*, *P. Poosapati*, *N. Pricope*, and *G. Dogan*
- Increasing the Efficiency of District Heating, Case Study 134
*Andrei Valentin Baicu** and *Sorin Voican*
- Investigating the Tooth Contact Based on a High-speed Thermography Monitoring Conducted Under High-reduction Hypoid Gears Meshing Conditions 139
*Kouki Watanabe**, *Toshiki Hirogaki*, and *Eiichi Aoyama*
