---

### Volume 9, Number 1, February 2019

#### • **Software Design and Development**

- Towards a Model-Driven Architecture Process for Developing Industry 4.0 Applicat.....1  
*Christoph Binder, Christian Neureiter, and Goran Lastro*
- API Testing for Payment Service Directive2 and Open Banking.....7  
*Rares Coste and Liviu Miclea*

#### • **System Modeling and Optimization**

- An Application of Bilevel Optimization in Pricing and Leasing Strategy.....12  
*Suthee Thititanapakorn and Pisit Jarumaneeroj*
- Deep Exercise Recommendation Model.....18  
*Tuanji Gong and Xuanxia Yao*
- Modeling the Speed Dynamics of a Car.....24  
*Vlad Mureşan, Mihail Abrudean, Valentin Sita, Iulia Clitan, Mihaela-Ligia Ungureşan, and Roxana Carmen Cordoş*

- A Framework for Social Network-Based Dynamic Modeling and Prediction of Communicable Diseases.....30  
*Samy Ghoniemy and Noha Gamal*

#### • **Intelligent Robot Design and Control**

- Animation in Robotics with LabVIEW Instrumentation.....34  
*Adrian D. Olaru, Serban A. Olaru, Niculae F. Mihai, and Natalia M. Smidova*
- Microsoft Kinect Sensor Used to Capture Data for Robotics Applications.....41  
*Ionel Staretu and Catalin Moldovan*
- Remotely Operated Robot with Live Camera Feed.....46  
*Stan Ovidiu and Liviu Miclea*

#### • **Electrical Engineering**

- Electrical Behavior of Connectors under Different Atmospheres.....51  
*R. El Abdi, J. Labbé, and F. Le Strat*
