

International Journal of Modeling and Optimization

CONTENTS

Volume 11, Number 4, November 2021

- **Computer Modeling and Simulation**

Software Platform for the Assisted Research of the Kinematics and Dynamics of Industrial Robots 94
Olaru A., Dobrescu T., Olaru S. and Mihai I.

Simulation and Analysis of Coal Mine Safety Escape Routes Based on a Multi-agent Model 101
Pan Lihu, Lu Feiping, Zhou Yaohui, and Qin Shipeng

New Approach for Secant Update Generalized Version of PSB..... 107
N. Boutet, R. Haelterman, and J. Degroote

- **Engineering and Control Technology**

Adaptive Radial Basis Function Neural Network Controller for Autonomous Multiroboters..... 112
Afshin Banazadeh and Ardalan Samadzadeh

Research on the Value Chain as a Strategic Management Tool for the Digital Enterprise 119
Istrateanu S. and Gheorghe G.

Multi-objective Optimization of a Mechatronic Solar Tracking Mechanism..... 126
Cătălin Alexandru

A Mathematical Model for Tool Sharing between Workers by Exact Solution Approach 132
Ashish Yadav, Rupesh Nishad, Ramawatar Kulhary, and Sunil Agrawal
