

International Journal of Modeling and Optimization

CONTENTS

Volume 13, Number 1, 2023

- Establishing Role of Human Behaviour in Maritime Accidents Using Fuzzy Fault Tree Analysis..... 1
Ali Zaib and Jingbo Yin
- Optimization for Bi-Objective Express Transportation Network Design 7
Jian Zhong, Xu Wang and Xinrui Li
- Device Model Extending from -40°C to -55°C Based on Evolutionary Strategy..... 13
Tengteng Lu, Jinzhong Sun, Dong Li and Xiao Mo
- Influence of the Deformations in Bushings on the Dynamic Behaviour of the Vehicles' Rear Axle Guidance Systems..... 19
Cătălin Alexandru
- Reliability Assessment for an IoT Device. Use Case: Parkinson's Patient Spoon..... 24
Marius Misaroş, Ştefan-Dragoş Cîrstea, Dan-Ioan Goţa, Ovidiu-Petru Stan and Cristian-Liviu Miclea
- Study on Dynamic Prediction and Visualization Simulation of Fire Temperature Field Based on UAVs 32
Wenjiang Chen, Jie Wang, Zhaoji Hu, Diping Yuan, Jinxing Hu and Jiaoyang Liu
- The Development of a Ball-screw Thermal Error Feedback System Based on FEM Simulations 39
M. Costea, Şt. Cula and G. Jiga
