

International Journal of Modeling and Optimization

CONTENTS

Volume 8, Number 2, April 2018

• Mechatronics and System Analysis

Ecosin-Mechatron Research Infrastructure — New Multi-Applied Smart and Multi-Mix Eco-Systems of Mechatronics in Romania in View of the Internationalization.....62
Gheorghe I. Gheorghe

Evaluation of Resistance against Vibration and Shock Resistance on Spherical Ultrasonic Motor.....68
Uichi Nishizawa, Taro Oohashi, and Shigeki Toyama

Finite Element Analysis of Spherical Ultrasonic Motor using Wire Stator.....74
Fulin Wang, Uichi Nishizawa, and Shigeki Toyama

Development of Stent Motor.....78
Shigeki Toyama and Uichi Nishizawa

• Mechanical System Modeling and Industrial Automation

Analytical Model to Profile the Hob Mill for Generating Quadrilobed Pump Rotor.....82
Gabriel Frumușanu and Nicolae Oancea

Apprenticeship Learning of Ship Behavior in Crowded Area by Dimension Compression.....87
Yuxin Liang and Masayoshi Mase

Estimation of Energy Consumption when Wearing Power Assist Suits.....95
Toshitake Araie, Uichi Nishizawa, Tomozumi Ikeda, Akira Kakimoto, and Shigeki Toyama

Numerical Method for the Kinematic Analysis of the Spatial Multi-Link Mechanisms.....101
Cătălin Alexandru

Assisted Research of Some Dynamic Behavior Robot's Parameters.....106
Adrian D. Olaru, Serban A. Olaru, Niculae C. Mihai, and Natalia M. Smidova

Study Concerning Mechanical Behavior for 3D Printing Parts.....112
Besnea Daniel, Dana Rizescu, Ciprian Ion Rizescu, Victor Constantin, Spanu Alina, and Panait Iolanda Constanta

• Finance and Investment

Application of Hurst Exponent (H) and the R/S Analysis in the Classification of FOREX Securities.....116
Milton S. Raimundo and Jun Okamoto Jr

Behavioral Stock Portfolio Optimization through Short-Selling.....125
Kuo-Hwa Chang, Michael N. Young, Chien-Chih Liu, and Hao-Ping Chung
